Winter Eczema

OR TETTER Is one of the many varieties of that tor-

menting disease called Eczema. It slum-bers through the aummer and breaks out in winter. The head, feet and hands

are the parts most often attacked, though it sometimes appears on other parts of the

body, the skin hardens, cracks open and bleeds, while the itching and burning is at times almost unbearable. Scratching

form which scale off SKIN CRACKS

causes. The trouble is more than skin

deep, and washes, soaps, powders and salves nor anything else applied to the surface can possibly do more than soothe the burning and itching or relieve temporarily the inflammation and pain.

It is the acids thrown off by the blood and which acids thrown off by the blood

and which are forcing their way through the pores that cause the skin to harden, crack and bleed, and produce the irrita-tion and soreness.

SSS s. S. S. neutralizes these acid poisons these acid poisons of all fritating substances and hymors
